AIMS

- To equip human settlements (HS) practitioners in all the spheres of government & public entities with relevant education on the management of HS
- To enable graduates from the programme with relevant HS knowledge to function in the public sector
- To produce graduates who are able to Apply fundamental aspects, principles, and procedures of financial accounting. - Manage policy implementation of human settlement projects adhere to compliance applicable to housing laws and regulations.
- Demonstrate an understanding of fundamental principles of ethics in a comparative multidisciplinary perspective. - Investigate the role that government plays in environmental affairs at national, provincial and local level.
- To produce graduates who can think innovatively about human settlement development

AIMS cont'd

- lays the foundation for career advancement and further studies in the fields of Public Administration and Human Settlements Management.
- Candidates that obtain this degree will also be able to contribute to the theory of human settlements management when they attain to Higher Degrees.

Strengths

- The programme is one of its kind offered fully online.
- Content focuses more on management aspects of HS unlike Engineering/Built environment.
- While the focus is HS the graduates from the programme can function within a wider public administration environment and in NGO environment.

Threats

- The graduate placements and employment has been a concern in this sector. Discussions with the National Department have been on-going. The advantage with UNISA's qualification is that it is not only taking unemployed students but equips even those that are already working.

Employed -337

Full time Students -24

Not Classified -112

Unemployed -793

- Content Improvement- Planning & land use management component
- More work on the impact of climate induced challenges impacting on HS

Opportunities & Growth

- Due to a number of enquiries received on short learning programmes on HS –the department may consider developing such.
- The advantage is that some people who are already employed within the HS space who do not qualify for the degree may improve their skills by way of short learning programmes.

Thank you
